

Excent's Full Service Billing Puts an End to the Burden of Claiming Medicaid Reimbursements

Does your district lack staff for Medicaid billing? Utilize Excent's Medicaid Billing Service to maximize your district's revenue while maintaining a lean infrastructure.

Our billing service includes claim reviews and district follow-up to determine quality and compliance prior to submission to a state's Medicaid agency, and provision of reports that detail logged versus billed encounters and a comparison of mandated versus provided services. Our billing experts also identify and amend any correctable rejected claims and resubmit for payment.

Full Service Billing Features:

Single Point of Contact – A dedicated billing expert will work with your district to maximize revenue

Error Identification before Claim Submission – We follow up with the Medicaid liaison in your district to address data entry errors

Audit Services – Excent helps districts keep their programs aligned with federal, state and local Medicaid regulations in order to be well-prepared for programmatic and fiscal audits

Mandated Versus Provided Services Reports – Project anticipated Medicaid revenue and determine if your district's actual service provision is keeping pace with mandated IEP services

Getting Started

It's never been easier to start billing with confidence. Partner with Excent Medicaid, the most cost-effective and comprehensive Medicaid reimbursement solution, to maximize your district's Medicaid reimbursement.
